THE SPACE

Located in the Madrid de los Austrias, next to the Teatro Real, in the Plaza de Oriente.

El Aljibe

On the ground floor of the Botillería is the El Aljibe room, it is one of the rooms belonging to the old monastery that King Felipe III ordered to be built in 1613. It is a space, a mixture of history and mystery, ideal for product presentations, exclusive fashion shows, press conferences, or simply a very special place for special celebrations that will surprise the diner. The exposed brick walls and ceilings in a vaulted form after a careful restoration, and the glazed floor give a glimpse of the archaeological remains of old Madrid.

TABERNA DEL ALABARDERO MADRID

It is also located in the Madrid de los Austrias, in the vicinity of the Teatro Real and in front of the Palacio de Oriente.

Its name originates from the soldiers of the special infantry corps who give a guard of honour to the Kings of Spain "the halberdiers".

For the past 40 years, its Basque cuisine has brought together the most influential figures in Spanish society: intellectuals, politicians, artists, journalists and musicians.
